You own it. Here is how we put it to work.

Builder Connect Group represents buyers and landowners who want to build. We pull the county record on your lot and match it to builders already working near it. Ask for the lot report on {{lot_situs}}.

Builder Connect Group represents you, not the builder. The builder pays Builder Connect's fee, and going direct to the builder does not lower your price. Requesting a lot report puts you under no obligation.
